THE BEGINNING

“The founding vision was to produce one of the best Cabernet Sauvignon’s under \$20. Wine had become so pretentious. I wanted to make a wine BY the people ...FOR the people”

2006

It all began with one varietal, Cabernet. Combining his business acumen, legal knowledge, passion for food and wine, and love for California, founder Yoav Gilat launched Cannonball Wine Company with a belief that wine should be fun, uninhibited, and approachable.

Over the next ten years, Yoav and his team of industry pros rocked the wine world with new brand creations and partnerships.

2016

A thriving global portfolio led to the creation of SHARE A SPLASH wine co. as the parent company, embodying the philosophy that *wine, like life, is best enjoyed when shared.*

With Cannonball as our flagship brand – SHARE A SPLASH wine co. has grown into a respected global producer and marketer of seven wine brands, united in their mission to connect people through wine.

We are passionate about offering wines we believe in and are committed to innovation and authenticity on every level of our business.

Cannonball is sourced from appellations throughout California. These diverse California microclimates, topography, and soils provide the perfect palette to create wines that are complex, highly consistent, and a pure expression of the variety. The Cannonball California family of growers and suppliers embrace and prioritize the principles of sustainable and restorative farming. These grape growers integrate the best elements of traditional viticulture with the ever-evolving farming techniques and knowledge of contemporary agriculture.

Founded in 2014 the Angels & Cowboys journey began with a sentimental namesake, a bold icon, and an appreciation for down to earth wines. These elements drove the vision to create an offering of wines that indulge *the lover, the trailblazer and the rule breaker in all of us.*

Angels & Cowboys is sourced from among the most iconic AVAs within Sonoma County and California's North Coast. From within these distinctive regions, we seek parcels that exhibit depth of fruit character, signature tannin and acid balance, and elegant yet generous palate structure.

A shared, holistic commitment to protecting and regenerating the terroirs from which we source our grapes is the foundation of our grower partnerships. From low-impact farming to addressing social responsibility, holistic sustainability addresses the needs of the land and the people who are stewards of it.
